## HIGHLY EFFICIENT MULTIBAND AND BROADBAND POWER AMPLIFIERS FOR MODERN RF TRANSMITTERS

Verlagsgruppe Mainz Sep 2016, 2016. Taschenbuch. Condition: Neu. Neuware - This dissertation deals with the development and implementation of novel architectures and concepts as efficiency enhancement techniques for multiband and broadband RF power amplifiers, which are crucial for multiband/ multimode or software-defined, high-speed modern wireless communications. The concurrent multiband Doherty power amplifier in this work is the first efficiency enhancement architecture ever proposed for more than two bands. What makes it possible is the realization of multiband passive components, especially...
