

A Theory of Musical Narrative (Paperback)

Filesize: 7.84 MB

Reviews

This pdf is wonderful. It really is written in simple terms instead of hard to understand. It's been developed in an exceedingly simple way and it is just after I finished reading this ebook in which it in fact modified me, altered the way in my opinion.
(Ollie Powlowski)

A THEORY OF MUSICAL NARRATIVE (PAPERBACK)

DOWNLOAD

Indiana University Press, United States, 2017. Paperback. Condition: New. Reprint. Language: English . Brand New Book. Byron Almen proposes an original synthesis of approaches to musical narrative from literary criticism, semiotics, historiography, musicology, and music theory, resulting in a significant critical reorientation of the field. This volume includes an extensive survey of traditional approaches to musical narrative illustrated by a wide variety of musical examples that highlight the range and applicability of the theoretical apparatus. Almen provides a careful delineation of the essential elements and preconditions of musical narrative organization, an eclectic analytical model applicable to a wide range of musical styles and repertoires, a classification scheme of narrative types and subtypes reflecting conceptually distinct narrative strategies, a wide array of interpretive categories, and a sensitivity to the dependence of narrative interpretation on the cultural milieu of the work, its various audiences, and the analyst. A Theory of Musical Narrative provides both an excellent introduction to an increasingly important conceptual domain and a complex reassessment of its possibilities and characteristics.
