Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from **A Popular Handbook and Atlas of Astronomy: Designed as a Complete Guide to a Knowledge of the Heavenly Bodies and as an Aid to Those Possessing Telescopes** IN the production of this work the Author had in remembrance what he had one time seen so well stated - viz., That the public now demand of those devoted to science, that they shall not confine the knowledge they have such favoured opportunities of acquiring, to the lecture-room, but shall render it, as far as practicable, available to the well-informed of all professions. While keeping this in view, however, he did riot think it necessary that the present work should be of an elementary nature, nor, on the other hand, an advanced work, but one well suited to occupy an intermediate position, and to give the kind of information so Often required, yet sometimes difficult to Obtain from ordinary works on the science. The various subjects, therefore, are described in a popular manner, while, at the same time, complete and accurate information is given in the principal departments Of modern astronomy. More than this, however, is occasionally required, and so numerous important Tables, which are too often omitted in works Of a similar nature, have been inserted for ready reference on the part of the student. The object has been, in short, to supply the knowledge that is required by every fairly well educated individual - viz., to give a clear, accurate, and popular account of the nature of the various heavenly bodies, and their position in the universe. In the first chapter, in a condensed form, there is presented the Author s investigation as to the origin of the Constellations, which at some...
