Reviews

This ebook is fantastic. It is actually written in straightforward terms rather than hard to understand. It has been designed in an extremely straightforward way and it is merely soon after I finished reading through this ebook through which in fact modified me, altered the way I really believe.

Brand New Book ***** Print on Demand *****.Excerpt from *The Modern: A Fragment* As the world progresses in the application of science and the elimination of the useful from the mechanic arts, it seems but to retrograde, or deteriorate, in those elements of taste which form our manners, determine our habits, and apparel our persons. It is but necessary to place these features in contrast, to be startled by their incongruity. Reason and Folly are so constantly seen in co-operation - one adorning the inner, the other the outer man - that a problem which would perplex Archimedes, is solved by some gentlemen with a hat only wanting the bells; while she whose unadorned beauty might prove irresistible, presents herself in such garb as should bring discredit on a Blanche of Devan. In treating this subject, the heel of gravity can scarcely avoid the foot-step of humor, as ideas, however sedate, must promptly retire upon an intrusion of the grotesque or ludicrous. A field so extensive as the title covers, would, if regularly passed over, have afforded fatigue rather than entertainment; it has been entered, therefore, at those points only, where the antithesis of flowers and weeds proved most conspicuous. Attention may be diverted from our own deficiencies, by inviting a consideration of those of our neighbors; so imperfections in this composition may escape observation, in view of those it seeks to correct.
