Createspace, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Originally published in 2004, these updated guidelines provide recommendations for poultry processing facilities to reduce the number and severity of work-related musculoskeletal disorders (MSDs). In preparing the following recommendations, OSHA reviewed existing practices and programs as well as available scientific information on ergonomic-related risk factors in poultry processing facilities. OSHA's guidelines are designed specifically for the poultry processing industry; however, other industries may find the recommendations and solutions presented useful. The heart of these guidelines is the process for protecting workers and the description of various solutions that have been implemented by poultry processors. OSHA recommends that poultry processors consider these solutions in the context of a systematic process that includes the elements described in the pages that follow. In the mid-1980s, the poultry processing industry began to focus on the problem of work-related musculoskeletal disorders (MSDs). MSDs include injury to the nerves, tendons, muscles and supporting structures of the hands, wrists, elbows, shoulders, neck and low back. In 1986, members of the poultry processing industry developed a guideline advocating training, identifying ergonomic hazards, and developing solutions to reduce ergonomic risk factors and early medical intervention as a means to reduce the occurrence of MSDs and their associated costs. In August 1993, OSHA published its Ergonomics Program Management Guidelines for Meatpacking Plants [meatpacking guidelines]. The meatpacking guidelines specifically recommended that employers implement an ergonomics process to identify and correct ergonomics-related problems in their worksites. Then in 2004, OSHA published the first version of these guidelines, Guidelines for Poultry Processing - Ergonomics for the Prevention of Musculoskeletal Disorders. MSDs continue to be common among workers in the poultry processing industry. In fact, the incidence rate of occupational illness cases reported in this...
