How to Live a Low-Carbon Life: The Individual's Guide to Tackling Climate Cha.

By Goodall, Chris

Routledge, UK, 2010. Softcover. Condition: New. First Edition. Available Now. Book Description: Drastic reduction of carbon emissions is vital if we are to avoid a catastrophe that devastates large parts of the world. Governments and businesses have been slow to act - individuals need to take the lead now if we are to avoid climate chaos. Each Westener is responsible for an average 10 - 20 tonnes of carbon emissions each year (depending on where you live). In How to Live a Low-Carbon Life, Chris Goodall shows how easy it is to take responsibility, providing a comprehensive, one-stop reference guide to calculating your CO2 emissions and reducing them to a more sustainable 2 tonnes a year. This fully revised and expanded new edition takes into account new government targets on emissions reductions and includes up-to-date calculations and extensive graphics clearly laying out the path to a low-carbon life. : Review: 'This book is the carbon-reduction bible. Accept no imitations.' - Mark Lynas, author of Six Degrees: Our Future on a Hotter Planet : 'This is the definitive guide to reducing your carbon footprint.' - New Scientist : 'Valuable ammunition for those who want to do something about global warming.' -...

Reviews

Simply no words and phrases to spell out. it was writtern extremely perfectly and useful. I am easily could possibly get a satisfaction of looking at a composed publication.

-- Prof. Maudie Ziemann

Absolutely one of the best book I have ever study. It is actually writer in simple terms rather than confusing. I realized this pdf from my dad and i suggested this pdf to understand.
